"Serving the fire and life safety needs of our community"

About East Fork Fire Protection District

East Fork Fire Protection District serves the communities of Carson Valley and Topaz within Douglas County. Douglas County was established on November 25, 1861 as one of the first nine counties by the first Nevada Territorial Legislature with the county seat in Genoa, the site of Nevada's first settlement. When Nevada became a state on October 31, 1864, Douglas became one of the original counties. Douglas is named after Stephen A. Douglas,

a former Illinois Senator who opposed Lincoln in the 1860 Presidential Election. In 1910, a fire damaged the Genoa courthouse and the county seat was moved to Minden in 1915.

East Fork Fire Protection District is named after the East Fork of the Carson River. The Carson River has both an East and West fork with the East being the largest. East Fork is relatively young, organized in 1981. Prior to East Fork's formation, the community was served by our volunteer fire departments, as well as a Douglas County Fire Department that employed a Fire Chief. A Paramedic District was later created. Through the years, these two agencies merged administratively and then officially, with the fire protection district eventually absorbing the services of the paramedic district.

GEOGRAPHY

East Fork covers 675 square miles of Douglas County's 751 square miles. Our geography ranges from lands at Lake Tahoe to Topaz Lake to the Pine Nut Mountain Range to the gorgeous ranching communities of Minden and Gardnerville. Our jurisdiction is bordered by Carson City Fire Department, Tahoe Douglas Fire District, Eastern Alpine Volunteer Fire Department, Antelope Valley Volunteer Fire Department and the Smith Valley Fire Protection District. We are a good mix of suburban, rural and frontier areas with landscapes from traditional sage and grass mix to conifers. Our elevation changes greatly which provides our outstanding mountain views!

COMMUNITY PROFILE

Minden/Gardnerville is reminiscent of *Rockwell's* America. Genoa is constantly in the running for the most picturesque rural town in America. Fishing is outstanding at Topaz Lake and what could be said about Lake Tahoe? Our community is comprised of 40,000 full time residents that balloons with up to 50,000 for special events such as the Air Show that has performances by the Thunderbirds, Genoa's Candy Dance and the annual Carson Valley Days festival. Our major employers are gaming and tourism, research and manufacturing and government services. We are home to one of three Starbucks Roasting Plants worldwide along with North Sails, the predominant manufacturer of high performance sails. Our airport is world renown for gliding as our mountains and valley make us the best spot in the world for gliding.

Our community has all of the facilities and amenities of a metropolitan area while providing rustic rural charm. The regional atmosphere of our community allows for great experiences in the State Capital of Carson City along with excellent alpine skiing at Lake Tahoe.

CLIMATE

Elevations within the County vary from a low of 4,625 feet on the valley floor to a high of 9,500 feet at East Peak. The proximity of the Carson Valley to the Sierra Nevada Mountains creates one of the most comfortable daily temperature ranges in the continental United States. Generally, the climate is arid, with warm summers, moderate winters, and cool evening temperatures year around.

"The East Fork Fire District is a team of compassionate, honest, dedicated professionals committed to serving the fire and life safety needs of our community"

About the District

The East Fork Fire Protection District is a separate and independent fire district which was formed under NRS 474.

The Fire Chief reports directly to the District Board of Directors. Career employees are represented by IAFF Local 3726. Management and labor are committed to working together regarding programs, needs, policy, and budget.

The East Fork Fire Protection District provides "all risk" service to the Carson Valley and southern Douglas County, as well as having jurisdiction within the Lake Tahoe Basin. Personnel are trained to provide structural firefighting, wildland firefighting, hazardous materials response, technical rescue, and emergency medical services. Emergency medical services account for over 85% of the total call volume. The district responds to 6,500 calls for service per year with an average annual increase of 3 to 4 percent per year.

The district employs several career staff, which include one District Fire Chief, two Deputy Fire Chiefs, three Battalion Chiefs, twelve Captains, twelve engineers, twenty seven

firefighter/medics, three Training/Safety Captains, one Fire Investigator/Captain, one Fire Inspector, and eleven clerical and support personnel. The career staff works co-dependently with the 50 plus logistical volunteers to provide services. Each of the Chief Officers of the districts is assigned specific areas of oversight under a "single point authority" method of management.

The organizational structure is composed of three functional divisions, including Administration, Operations/Training/Safety, and Fire Prevention/Support Services.

Services provided by these divisions include: responding to and managing requests for emergency services, fire investigations, building inspections, code enforcement, training, safety, public education, budget and finance, contract negotiation, resource management, vehicle maintenance, emergency management, communications, volunteer recruitment and retention, support services, and general administration. The Districts also provide contract service for Emergency Management to Douglas County

The district receives funding from several different sources. The final budget for the fiscal year 2017/18 totals nearly fifteen million dollars. The basic direction from the Board is to work towards a balanced budget with no impacts on existing services and to do so using existing tax rates and user fees, where applicable.

Employees are represented by the East Fork Professional Firefighters Association, (IAFF Local 3726). The districts continue to enjoy a positive relationship with the firefighter's union and are

Looking Ahead

currently involved in contract negotiations. Personnel up to the rank of Battalion Chief are covered by the Collective Bargaining Agreement.

Standard of Cover – The districts are currently in the process of revising a comprehensive Standard of Cover. The initial development of this document was identified in the District's Strategic Plan in 2006. It is anticipated that significant beneficial changes in operations may result when this update is complete, all to the benefit of our constituents. ***Three person engine staffing and the implementation of apparatus engineer positions have already been accomplished.***

Budget and Finance – Like most governmental agencies, funding has taken center stage in our day to day operations. While the district's financial situation has improved funding, costs, and budgetary issues are a current reality for the districts to manage.

Strategic Plan Update and Revision – The District is currently in the process of revising its Strategic Plan. The original plan, adopted in 2006, has seen over 90% implementation successes.

Wildland and Urban Interface Fire Suppression – Urban interface and wildland fire suppression is one of our greatest challenges. The district contains numerous urban interface zones and in most cases is the initial attack agency to fires on federal lands. The district actively participates in mutual and automatic aid within the region and throughout the United State. Several employees are members of both Type III and Type II National Incident Management Teams.

Volunteer Recruitment Initiative – The District is embarking on a comprehensive district-wide volunteer recruitment program with an emphasis on recruiting logistical volunteers to support incident needs.

Compensation and Benefits

The salary range for the Firefighter-Advanced EMT is \$43,883 to \$61,559 and for the Firefighter-Paramedic the salary range is \$51,950 to \$72,887. Both positions are covered under labor contracts with negotiations currently in progress. Both labor and management are committed to increasing the starting pay for both positions with a new labor contract. The district has a generous benefits program including state retirement plan (PERS), health, dental, vision, and life insurance, paid vacation and sick days. Working conditions within the district are outstanding and the area offers a high quality of life. These positions work under the 48/96 work schedule. Please see the attached job descriptions for more information.

**EAST FORK FIRE PROTECTION DISTRICT
JOB DESCRIPTION**

JOB TITLE:	Firefighter-Advanced EMT	FLSA: Non-Exempt
DIVISION:	Operations	
REPORTS TO:	Captain	DATE: November 1, 2017
